

## HARVAT mirror

Design: Damien Gernay  
Production: JCP Universe, 2022

*"All your other selves  
Warp and fragment into shards  
Making you perfect"*

Haiku by Alistair Gentry

*Harvat* explores the notion of a basic geometric object, such as a disc, to which a physical interaction gives an identity and functionality of its own. Inspired by chaos theory, the piece expresses how a tiny change in a complex system can have large effects elsewhere. The mirror has an irregular, three-dimensional shape, like a drape that orients and transform the viewer's identity.

Materials: silver mirror with irregular three-dimensional shape made of moulded fused glass.

Dimensions (W x D x H): Ø 90cm
