

ABORAM vase

Production: JCP Universe, 2019

*"Kusa no hana
Yes I said yes I will Yes
Get hard as marble"*

Haiku by Alistair Gentry

The stone, with its primordial strength and its material beauty, becomes a powerful base from which metal extensions grow organically. Going beyond the idea of a simple ornamental piece, *Aboram* is a sculpture open to a thousand interpretations, according to its users' needs and to the environment in which it is inserted.

Materials: vase with base with polished marble or onyx slabs to choose from: Sultano Onyx, Irish Green marble and Dolcevitte marble. Goblet in natural copper or with vert-de-gris finishing.

Dimensions (W x D x H):
Small: 28cm x 15cm x 30cm
