

## REXALT armchair

Design: Alessandro Zambelli  
Production: JCP Universe, 2017

*“Objects reflected  
Call you to the other side  
To touch them, like here”*

Haiku by Alistair Gentry

An inclined plane: space-time horizon of ephemeral essence that separates and joins at the same time. Two spheres meet each other on this surface, perceiving themselves through it, like an alternative reality distorted by a mirror. A wonder-object imbued with metaphysical concepts that sublimates the idea of an armchair, Rexalt suggests that it is not possible to base the knowledge only on what is perceived through the senses, but it is necessary to extend the vision to go deep into the existence.

Materials: armchair with metal structure in matt black finishing. Seat made of two spheres in high-density polyurethane foam upholstered in Black and White two-way stretch sustainable techno-fabric. Back with technical mesh fabric fixed to the metal structure.

Dimensions (W x D x H): 64cm x 90cm x 180cm
