

## AGAXA stool

Design: CTRLZAK  
Production: JCP Universe, 2016

*"Lost in the forest  
Warrior women dancing  
Look: do not approach"*

Haiku by Alistair Gentry

The creative power of man and the beauty of nature: a binomial in constant search of balance, finding its perfect expression in *Agaxa*. The multiple layers of leather covering the metal structure transform the stool into a powerful creation, blurring the line between art and design.

Materials: rocking stool with metal structure in matt gold or black chrome finishing. Seat with structure in multilayered wood and high-density polyurethane foam. Upholstery with three different leather layers. Handles in leather with brass button.

*\*Being freehand-cutted elements, leather layers could be different on each piece*

Dimensions (W x D x H): 70cm x 39cm x 70cm
