SOPOVRIA SO coffee tables

Design: Sovrappensiero

Production: JCP, 2019

"Singles in your town

Disturb the universe

Me ha namida"

Haiku by Alistair Gentry

Everything has a soul: in many cultures objects, places, and materials are attributed with divine or supernatural qualities. *Sopovria* is a family of diaphanous items, whose contours dissolve and melt with the surroundings. At the same time, we can spot their soul, balanced between transparency and color. Zoomorphic shapes characterize these coffee tables, little creatures that are here to keep us company.

Materials: structure in matte plexiglass, surface with gradient print

Dimensions (H x W x D): 35 cm x 90cm x 90cm
